

Information about Reg. No. assignment or recording

Under Act No 111/2009 on Business and Civil Registers, a Registered Number (Reg. No.; in Czech "IČ") can be assigned to licence applicants who are natural persons. A Reg. No. must be assigned to each economic entity, i.e. also holders of licences for business in energy industries.

The applicant completes the Application for Reg. No. assignment or recording.

Where the applicant who is a natural person has never been assigned a Reg. No., the ERO assigns a new Reg. No.

Where a Reg. No. was assigned to an applicant who is a natural person and it is invalid now, the ERO reactivates the Reg. No. The application is sent to the ERO together with the licence application or during the licensing proceedings under way. The assignment/reactivation of the Reg. No. is free of charge.

The granted licence will then also contain the assigned Reg. No.
